Feel free to discuss with your child's classroom teacher or admin if you have thoughts or questions. We will begin our training process over the next few weeks to foster healthy connections with caregivers and classmates. As always, we look forward to creative opportunities for inquiring minds.

## August Curriculum Enhancements: Confidence

Self-confidence is your own evaluation of your ability to sufficiently respond to and manage life's challenges. It can be natural and enhanced through patience, leading you to greater levels of accomplishment and an overall satisfaction in life. Self-confidence is directly connected to our self-value. It's the idea in which we have about ourselves and just how important and valuable we believe ourselves to be. It is how we all build respect for ourselves.
